

CAUTION

This chart has been prepared from the contents of Dr Grey Wolf's head, in the style of an RYA Training Chart, oh, and just for fun, includes a loose adaptation of the OS Map of Brownsea Island for the training and entertainment of SeaScouts. It is almost entirely fictitious and therefore cannot be used for navigation.

NOT TO BE USED FOR NAVIGATION

NOT TO BE USED FOR NAVIGATION

Created by Grey Wolf AKA Mike Jones primarily for the education and entertainment of Scouts and leaders associated with Sea Scouting. This map is largely fictional. It was created based on the RYA3 and Admiralty training map with symbols to resemble IALA buoyage and landmarks on charts generally available on the market. The map provides opportunity to exploresimple navigational concepts as part of an escape room activity. If you have enjoyed this you might like to buy meacoffee.com/emceearsey . CC BY-NC-SA
